

**REMARKS**

In this paper, claim 1 has been amended to recite: "wherein each of the sub-fields includes a sustain period and wherein a number of sustain pulses in the sustain period of each sub-field is independent of a temperature of the plasma display panel." In the Interview Summary record dated November 9, 2006, the Examiner indicated that this amendment would be sufficient to patentably distinguish claim 1 from the cited references. Allowance of claim 1 and its dependent claims is therefore respectfully requested.

As for the remaining independent claims, Applicants respectfully submit that these claims are in condition for allowance for the reasons set forth in the Request for Reconsideration previously filed and based on the features emphasized during the interview.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this, concurrent and future replies, including extension of time fees, to Deposit Account 16-0607 and please credit any excess fees to such deposit account.

Respectfully submitted,
